

## **About us:**

Screen4 provide the most comprehensive Random and With Cause Drug and Alcohol testing services across all markets. We provide services across the globe and have established a reputation for providing quality products and reliable services that match our customers' requirements.

Our services vary from Drug and Alcohol testing, policy writing, advice and guidance to training and awareness courses.

Established in 2009 we have built a reputable brand in a variety of sectors across the globe. Based in the UK with operations in the United Arab Emirates (Dubai), Hong Kong, Bahrain and Australia, we currently provide Drug and Alcohol testing solutions to many global organisations within the Aviation, Maritime, Petrochemical, Transport, Manufacturing and Security industries.

We have a 24-hour call centre based in the UK, from which our collection network is controlled. With over 300 collection agents across the globe we can arrange testing to suit all business requirements.

## **Opportunity Details:**

We have contracts outside of the UK, we are continuing to expand within the UK and over sea's, hence the need for additional Collectors.

Screen4 do not employ any Collectors, but utilises self-employed, trained personnel for collections. This means that we are unable to provide any guarantees of any work or volume at any time.

The market sector we service is a reactive one, rather than a pro-active one, and we work to customer requirements. Our current rates are £15 per hour on-site, with a guaranteed minimum of 4 hours. We also pay travel at £0.40 per mile. Call outs for Aviation clients are £150 plus travel fees. Other callouts for Workplace clients (non-aviation) are paid at the base rate as above.

With regards to geographical areas, some of our customers require a 2-hrs' response to a call-out, so we generally keep Collectors within their home area. That said, there may be some occasions when we ask Collectors to travel farther afield, but that is always in agreement with the Collector in question.

## **Duties:**

- Attend call outs and conduct drug and alcohol tests (random and with cause)
- Attend pre-scheduled sample collections
- The taking of specimen samples – urine, oral, hair and fingerprinting
- Utilise different testing procedures instant and back to lab – training is provided
- Completing collections in line with Screen4's Chain of Custody procedures
- Provide evidential supporting evidence
- Liaise with Screen4 Management

**If the above is of interest to you, please come back to me, together with a current CV and any restrictions on availability (other part time commitments etc)**

**We look forward to hearing from you!**

**How to Apply:**

**Send your CV and covering letter to [operations@screen4.org](mailto:operations@screen4.org)**
