

**Substance abuse is a growing concern worldwide, with devastating effects on individuals, families, and communities. With drug and alcohol use posing significant risk, we understand the importance of maintaining a drug-free environment to ensure safety and well-being.**

Screen4 is a leading UK-based drug and alcohol testing provider with over 30 years of experience, offering a comprehensive range of screening services, consultancy, and training solutions for organisations of all sizes and industries.

We aim to help navigate the challenges of substance abuse with our state-of-the-art technology, expert knowledge, and confidential testing procedures.

We also provides organisations with access to self-collection drug and alcohol testing devices, including oral fluid POCT tests, urine POCT cups, urine back to lab kits, breathalysers, and chain of custody forms.

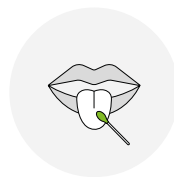

## Self-Collect Testing Options

**Breath Alcohol Test**  
Immediate - Legally  
defensible/ evidential

**Urine Testing**  
1-14 days in the system (drug  
dependant & can be longer)

**Oral Fluid Testing**  
Between  
12 - 72 hours

Our drug detection panels can be tailored to suit your requirements.
